

Quality Management System

Quality Policy

Shire Controls Limited recognises that the disciplines of quality, health & safety and environmental management are an integral part of its management function. The Company views these as a primary responsibility and to be the key to good business in adopting appropriate Quality Standards.

Shire Controls Limited Quality Policy calls for continuous improvement in its Quality Management activities according to the following principles:

- Comply with all applicable laws, regulations and directives for the design, manufacturing and production of medical equipment for gas alarms and anaesthetic scavenging systems ,
- Take legal responsibility for the product design, manufacture, labelling and packaging before it is placed on the market.
- Follow a concept of continuous improvement making the best use of its management resources in all quality matters and committed to maintain the effectiveness of the quality management system
- Set and communicate its Quality Objectives, its performance against these objectives throughout the Company and to interested parties.
- Take due care to ensure that activities are safe for employees, customers and end-users.
- Work closely with our customers, suppliers and sub-contractors to establish the highest Quality Standards and ensure our products are as ordered, as described and are fully documented and operational.
- Ensure our products are reliable, durable and available and offer the best solution and service for the customer.
- Adopt a forward-looking view on future business decisions which may have Quality impacts.
- Train our staff in the needs and responsibilities of Quality Management.
- Train our staff in the requirements of health & safety for the production and maintenance of our products.
- Review this policy annually, which will be displayed in our offices and be made available to the general public.
